

Sustainability Vision

Driven by love, dedication, and responsibility, we create long-term value for society to deliver a sustainable and meaningful quality of life.

Environmental

We are committed to developing environmentally friendly projects, adapting to climate change, and moving towards becoming a low-carbon organization sustainably.

Environmental Goals

- Reduce electricity consumption in head office and site offices by 5% from the 2025 baseline by 2027.
- Reduce water consumption in site offices by 5% from the 2025 baseline by 2027.
- Install solar rooftops in 50% of all delivered houses by 2027.
- Achieve 100% waste separation in head office and site offices.

Social

We aim to create a balance between business growth and the quality of life of communities, customers, partners, and employees, to ensure sustainable value creation and long-term growth.

Social Goals

- Conduct comprehensive human rights risk assessments with key partners by 2027
- Procure goods and services from SMEs for at least 20% of construction value
- Ensure all new projects include community engagement plans by 2027
- Achieve customer satisfaction score \geq 80% by 2027
- Achieve employee engagement score \geq 80% by 2027
- Ensure at least 30% of executives are female by 2027

Governance

We operate with transparency, accountability, and responsibility to stakeholders, while managing the supply chain with integrity and sustainability.

Governance Goals

- Zero cases of non-compliance with laws and regulations
- Key partners sign and comply with supplier code of conduct and ESG assessments by 2026
- Achieve more than 50% green procurement in projects by 2027
- Promote at least 1 innovation project per year (economic value creation)
